

OVERVIEW

- This 2 day course builds on previous working at height qualifications and experience. It is aimed at personnel who run teams of working at height operatives or persons undertaking a more supervisory role within this field. The aim of the course is to provide persons with both theoretical and practical knowledge. Candidates will return to the workplace with the knowledge and confidence to oversee the safe working at height practices of their teams.

COURSE TYPE

- The course will take place both in the classroom and within our training facility or on site. Practical use of the relevant equipment will be included. Both a written and practical test will confirm that the required standard has been met.

CONTENT

- Legislation
- Risk Assessments and Method Statements
